

## Just William

William came to live with us in June, he's settled in very well. Our other cat Jezebel ( 16yrs and deaf ) has now realised he's here to stay, he's allowed to share his sofa & bed ( ours ).

He likes to go for an early morning wander checks at his gardens, soon back to demand his breakfast. The mouse population has decreased since his arrival, of which we have been presented with a few !

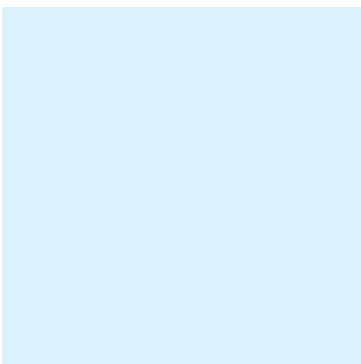

He enjoys bird watching, squirrel chasing and flicking his magnificent tail at foxes.

He loves home comforts playing with paper balls, toys, boxes and catnip mice.

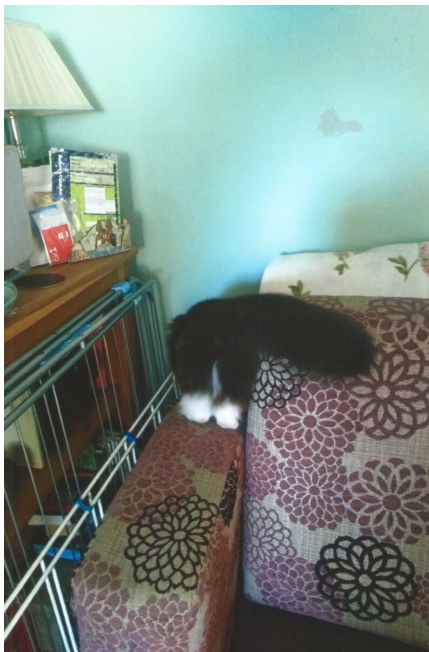

Photographs of King William, one of his many nicknames.
